

CHEVRON CHIC QUILT

How to make the half-square triangles:

1. Place a 10" tone on tone white or solid square and a 10" contrasting fabric square right sides together.
2. Sew 1/4" around the outside edge and then cut the square on both diagonals (red lines) creating four half-square triangles.
3. Trim half-square triangles to 6 1/2".

Figure 1

4. Press toward the chevron fabric.

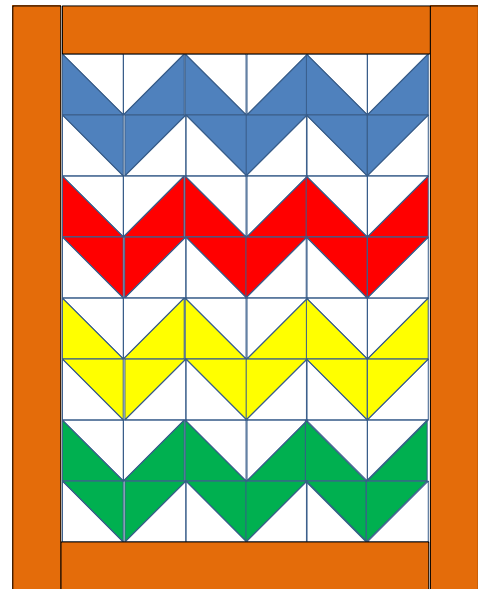

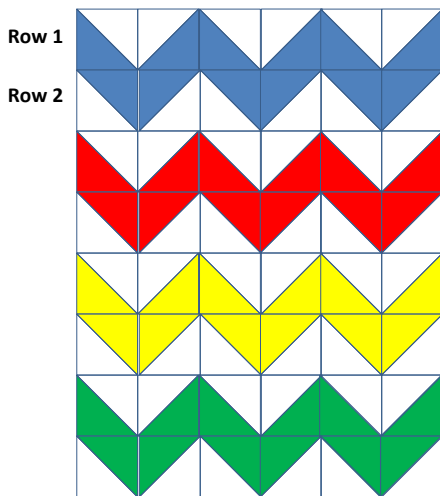

To make the Chevron Chic quilt:

If you are making the chevron rows different colors, you will need three 10" squares of four different colors and twelve 10" white or background squares. This quilt top has four complete chevron rows.

(If you are making the chevron rows all one color, you will need 12 – 10" squares (You can use different prints of the same color or all the same prints of the same color - plus 12 – 10" white squares.) This is a great pattern for a 10" square fabric exchange.

1. Create 12 half-square triangles as pictured from each of the four print fabrics. (Figure 1)
2. Sew six of the half square triangles of one color in a row as pictured. (Figure 2)
3. Assemble the rows as follows:
 - a. Row 1, match the background (white) triangles
 - b. Row 2, match the chevron (colored) fabric triangles.
4. You can add a border or two if you like, to finish the edges.

Figure 2

Finished quilt size without borders is approximately 36" x 48".
With 3" borders the size is 42" x 54"

To make this quilt with borders you will need:

Chevron fabric: 3 – 10" squares of four different colors
Background fabric: 1 yard cut into 12 – 10" squares
Borders: Six (6) 3 1/2" squares (vertical borders will be pieced).
Backing and Batting: 42" x 54" cut to size
Binding: 1/2 yard of binding fabric
